The games are played in our three purpose built arenas. Chemical Alley, Battle Bridge and Ground Assault. These purpose built games, guarantee adrenalin filled fun!

ARCHERY

Archery provides a change of pace from our other activities, where skill, judgment and a cool head count more than speed and adrenaline.

An experienced archer will give you one to one tuition.

After a practice session to develop your technique there will be a competition. You may be surprised who emerges as the next Robin Hood!

LASER CLAY

Ever wanted to get your hands on a double barrel shotgun?

This shooting sport combines skill with excitement and is extremely unique. A real modified shotgun fires infrared beams at clays launched from a conventional clay launcher, whenever the trigger is pulled the scoreboard generates a shotgun sound along with a hit or miss!

This really is as close to the real thing as it gets, complete with a large visual electronic score board to amuse both the participants and spectators.

SUMO FUN

Sumo Wrestling is an ancient sport that tests an individual's strength in combat.

Traditionally the heavier a Sumo Wrestler was , the more force he had to push his opponent out of the ring.

Go head to head with your colleagues and test your skills at the imperial art of inflatable Sumo Wrestling in the ring!

Great fun for all.

TEAM BUILDING

Egg Launch

This activity will encourage teamwork, time management, strategic and creative thinking within the group as they work together to build a contraption that can launch an egg the furthest distance in the air.

A Team Challenge

This activity is a series of three unique challenges. Teams must work together to come up with a solution to complete the challenges.

TEAM BUILDING

CATERING

Laser Tag

This sport is similar to paintball. It has the same thrills and excitement without the mess. Teams must strategise to infiltrate the opposing team's base camp and capture their flag. The guns fire an infrared beam to a range of 100 metres and are also fitted with grenade launchers.

Finesse Karting

In this relay event, individuals must manoeuvre their way around the track, back to their teammate, while carefully ensuring that no tennis balls fall out of their basket attached to the kart. Finesse and speed must be combined in this exciting relay race.
